“ I'm sorry for your loss. Margie was a good patient and I'm sure you'll miss her. Good luck in the future!

“ I have known Margie since she married George and started their family on Pierce Lane, then on the western edge of Godfrey. I have also known George from childhood on, being a next door neighbor to the Droste family. I suppose that Margie and George are two of the friendliest people I have known in my life time, always ready for a happy visit whenever Marilyn and I would see them, not often, as we were both busy raising families in those days. Margie surely deserves her reward in heaven.

“ To the families of Margie,
So grateful for the opportunity I had to meet with both your parents back in 1991. I traveled to Illinois to trace where my grandparents came from and hopefully meet some relatives. This was such a blessing! Sherrie & Ronnie Miller brought me to your house. After I was married your mom and dad stayed with us up here for a bit and then your mom came back with Sherrie for my mom & dad's 50th anniversary. Again, such a blessing! I will always treasure the moments we were together and our phone conversations. Please know that you are welcome in my home anytime if you should get to southern Alberta. Your mom was a true treasure and I am confident she is singing with the angels now.

“ I worked with Margie at St Anthony's in the business office & she was such a sweet lady. I loved her laugh & her smile when she was talking about George & her family.

“ Margie had a smile that I always remember. It looks as if her smile didn't fade with age. I remember her driving Kathy, Dorothy, Doris and me to some events. This was done in some nasty weather.

“ My Aunt Margie was a very special lady. Her devotion to Mary was evident to all who knew her. She was the one who would pray for you and your needs. I was so blessed to have her in my life. I loved her. Now she is with George and her parents in the glory of Heaven.

“ Margie was in my class at Marquette. She and Jovenna helped me put on a class reunion. They did much of the work since I live in California.
