“ Though I have not been able to visit as much as I would have liked through the years, I loved my dad very much and I will miss him dearly. His sense of humor was one of his most endearing attributes. He always made me laugh. He was a great artist as well. When I was younger and he would come to visit he would always sing a special song just for me before leaving. My dad and I had a very special bond that even the distance between us and the time that lapsed between visits couldn't break. I love him so much! Till I see you again💔
