“ *Dr. Denby was the kindest person I think I have ever known. He was my mentor at UMKC during the 1980s when I worked on my Masters in English Education. I believe that I took every class that he taught, and he even let me teach his Adolescent Literature classes several times during various semesters for graduate credit. Later, he allowed me to work as a student teacher supervisor at UMKC. He was also responsible for getting me a part-time teaching position at Avila College. I credit his teaching and love of others as major contributing factors to my own long teaching career (42 years). I will miss him greatly, but I will always think fondly of him and his wonderful family. Love to all of you. Fran Libra Koenigsdorf, Overland Park, KS*
