“ A cousin here, I remember Steve as a quiet and unique person when we interacted at family gatherings. I felt so bad for his whole family when his dad passed away when they were just kids. It's nice to see he had a good life, albeit too short .. RIP Steve.

“ I was Steve's caregiver. We shared the same Birthday. He had me hooked on watching Emergency and restoration on tv. He will be missed.

“ Always had great times with Steve. Got to know him through K-10 model trains. We shared many stories about the fire service as I spent 36 years as a volunteer. I just happened to be at the great St. Louis fire. He told me that he was the engineer on the pumper that the building collapsed upon. We shared many stories about that afternoon and evening.

*He was a great friend and willing to help in anyway he could.*

*My wife and I had the pleasure of meeting of Lisa on one of the famous K-10 Milwaukee train outings. Over wine, we got to know them better.*

*We will all miss Steve and our deepest sympathy to Lisa and all his family. May God bless you with many great memories.*
